

THE AUTONEXUS CANOPY

100KG
LOAD CAPACITY
CERTIFIED TO
AS 1235:2000

**SUPERIOR STRENGTH.
CUSTOM DESIGN.
WE'VE GOT IT COVERED.**

When it comes to securing and weather-proofing your load, AutoNexus has it covered. With a superior top load capacity of 100kg, solid fiberglass construction and a fully custom-moulded fit to complement every ute, the AutoNexus Canopy is a premium solution with outstanding craftsmanship.

A PREMIUM SOLUTION WITH OUTSTANDING CRAFTSMANSHIP

100KG LOAD CAPACITY

Fundamental to the design is the strong foundation and fully integrated base rail. Not only is every canopy load tested to 100kg, no internal frame is required when fitting roof racks and carrying top load – offering superior strength and more space.

SUPERIOR STRENGTH

AutoNexus Canopies are comprised of super strong 5mm thick fibreglass, made from a single shell mould using 50mm long glass fibre. With a solid, fully integrated base rail, the canopy construction reduces sidewall lateral flexing.

SOPHISTICATED, ROBUST FEATURES

AutoNexus Canopies are designed with high-end features to stand the test of time. Each canopy goes through robust quality control, including a comprehensive water test after final assembly.

ADDED SECURITY, IMPENETRABLE WEATHER BARRIER

Providing the ultimate in security features, the AutoNexus Canopy has a dual latch, robust locking system utilising rigid latch positive locking, so rear doors can not be levered open. Every canopy is uniquely keyed – providing extra security.

CONVENIENCE

Maximum performance with superior style, the AutoNexus Canopy range is fitted by our specialist team around Australia.

ADVANCED BUILD

AutoNexus Canopies are built using robotic machinery for high quality of construction, accuracy and consistency. Every canopy comes with sophisticated security features and an extensive range of additional options.

A SEAMLESS, BESPOKE DESIGN

Laser scanning technology and CAD design creates a custom AutoNexus Canopy with a perfect fit to each vehicle. With a smooth, UV resistant high-gloss finish and flexible window options, the canopy complements the design of each ute model. Flexible window options include; fixed, sliding, lift up with supporting struts or none at all.

OPTIONAL EXTRAS

- ✓ Roof racks and ladder racks
- ✓ Shelving and racking
- ✓ Drawer systems
- ✓ Reverse sensors and reversing cameras
- ✓ Day time running lights
- ✓ Bin liners
- ✓ Canvas seat covers

KEY FEATURES

SUPERIOR STRENGTH

- ✓ Certified for a load capacity of 100kg, tested to AS 1235:2000
- ✓ Composite fibre reinforced roof rack mounts
