# WANT A ONE-STOP-SHOP SOLUTION FOR YOUR FLEET?

With the AutoNexus shelving solution, we can look after your fit out and processing needs from end to end, which means less transportation costs and shorter turnaround times for you.

The AutoNexus shelving solution is:

## SAFE

Certified and crash tested to ADR42/04, our shelving solution has an approved safety weight rating of 100 kg per bay of shelving.

## STYLED TO FIT

We have pre cut panels specifically designed to suit the contours of popular commercial fleet vehicles, so shelving units make maximum utilisation of space and look better in the vehicles.

## CUSTOMISABLE

Want something different? We can tailor our shelving solution to suit your needs – just tell us what you want. Whether it's special shelving configurations, higher weight bearing requirements or a non-standard vehicle fit, we can help you. We can also provide and fit any shelving or storage accessories you may require.

## Popular options include:

- Partitions
- Benches
- Rear steps
- Rubber flooring
- Hot water
- Hand wash
- Reversing sensors and cameras

## KEY BENEFITS

- Adjustable shelving positions to suit individual needs
- Crash tested for occupant safety and safe load capacity and certified compliant with ADR42/04
- Wide range of accessories available
- Laser cut to suit the contours of your vehicles
- Various in vehicle configurations available
- Heavy duty bins designed for industrial use
- LED lighting to help find small items in dark conditions

## We have ready made shelving solutions for:

• TOYOTA HIACE

• VW CADDY

• HYUNDAI I-LOAD

• VW TRANSPORTER

• MERCEDES SPRINTER

• VW CRAFTER

• MERCEDES VITO
